/ work experience

Royal Bank of Canada

Software Developer Intern

09/2019 - 12/2019

- > Implemented an automated documentation system of a section of RBC's online banking infrastructure using a [Neo4J graph database](#) and [D3.js saving hundreds of developer hours and tens of thousands of dollars](#) writing documentation.
- > Built a relational graph database for the documentation project by [scraping 700+ GitHub repositories](#). The database contains [2,000+ entries](#) covering every single application widget, SPA, endpoint, and API across the entire OMNI channel platform.
- > Developed and tested the Bill Payment Cancellation feature and Advisor facing apps for one of Canada's largest online banking platforms [used by 5M+ users monthly](#).

Deloitte Digital

Software Developer Intern, BTA

05/2019 - 08/2019

- > Worked as a front end [developer](#) and [designer](#) of the [EmotionPlus](#) team under the direction of Jeff Lui, Director of AI.
- > Designed and developed [four real time data visualization dashboards](#) using [Figma](#), [React](#), [D3.js](#), [websockets](#), and [interactive SVG](#) to display emotional analysis data for the project's clients and product showcases such as the True North Conference.
- > Helped develop the UI of the project by building reusable components using [Semantic UI](#) and [React Redux](#).
- > Designed [branding](#) and [marketing](#) assets to be used in future releases of the project.

School of Computer Science

Teaching Assistant

09/2018 - 04/2019

- > [Web Development I](#). [Wrote tutorials](#) to introduce new topics to the class such as [Git](#) and the [software development cycle](#). Hosted assignment workshops, office hours, and graded assignments.

/ education
